6 reasons to hire Instatec for your project:

1 Work with experts

Instatec professionals are able to navigate to up, down, and across multiple environments, platforms, programming languages and ensure rapid, cost-effective delivery of proper IT solutions: custom time-tracking software, shopping cart, CMS, Newsletter System or CRM.

2 Prior experience and superior support

Instatec team developed literally hundreds of projects with different technologies involved. And we are committed to provide more than just basic technical support — we go the extra mile to make our customers raving fans of our services, not just satisfied customers.

3 We work according to standards

Instatec operates in accordance with the highest standards in all relationships with clients, the environment, and the community.

4 We offer affordable IT solution for every budget

The solution doesn't always need to be complicated or expensive. With **Instatec** you can lower your development costs up to 60%! [Send us](#) some of your projects to achieve your business goals faster, more completely and more economically.

5 We know our customers

We know what kind of problems and needs every business confronts almost daily, whether you are web development company or owner of small local shop. We ensure the most effective solution is offered.

6 Unique Instatec mix

Effective, reliable, cost-competitive solutions provided with quality support and delivered on time and within budget. It is rare to find an IT company that offers all those together, and at **Instatec** you will. A full suite of our services will function together to give your business a competitive advantage.
